

Help us get the SNAP™ Concussion Test for our school

WHAT IS SNAP?

SNAP is a 90 second concussion test that does not require a pre-injury baseline. It is the fastest, most accurate test for concussion available, with **90% sensitivity and 94% specificity** for diagnosing concussion.

SNAP GIVES OUR ATHLETES

- Access to testing on the **sideline or indoors**
- **Peace of mind** for parents, staff, and athletes with easy to understand results
- Coverage for **ALL** sports, this portable device can help serve many athletes

THE STAKES: WHY WE NEED THIS

- Concussion is one of the most common and underreported injuries in youth sports
- A missed or delayed concussion diagnosis can lead to serious long-term neurological damage
- Concussions can happen in every sport, it's better to be prepared for that moment.

HOW YOU CAN HELP?

Fund our SNAP™ device.

Goal: \$9,500

WHAT YOUR INVESTMENT COVERS

- SNAP™ portable device
- Ongoing support
- Comprehensive concussion training resources
- Durable carrying case for safe transport and storage
